• NCRC Awareness: With the warm weather season upon us, please be mindful of the increased human and wildlife activity at NCRC as you navigate the walks and drives around the
complex. Reduce your speed and be prepared to stop. Activity has been observed at all hours, so please remain vigilant as you are arriving or leaving NCRC. This is particularly important at intersections and crosswalks, as well as near ponds and prairie areas where wildlife presence is the greatest. The complex is destined to reach its capacity over the next few years placing increased demand on parking as well as pedestrian and vehicle circulation. Several pedestrian walkway and roadway improvement projects are planned to ease this pressure. Please raise your own awareness of activity around you in addition to these efforts.
