NCRC Art is pleased to present the group exhibition Abstract View: Detroit, organized by Detroit’s N’Namdi Center. The exhibition will be on view through September 16, 2015 in the NCRC Rotunda Gallery, Building 18.

This show includes a selection of paintings by some of Detroit’s most noted abstract artists. These works come from the N’Namdi Collection, one of the finest private collections of African American art in the world. The owner of the collection, Dr. George N’Namdi, explains, “The combined works cover more than a century of art in every genre and is anchored by contemporary abstract paintings. The collection can be seen as a legacy investment, which assists in securing the heritage of African American artists. It is also a tool for educating audiences on the contributions of people of African descent to the discourse of modern and contemporary art.” This collection is the culmination of over 40 years of commitment, entrepreneurship and discernment, the collection represents the many divergent approaches to making art, and the history, struggles and triumphs.
