- 9/24: CBSSM Seminar: Wendy Kline, PhD
- 9/29 - Learn the Basics of Budgeting for Research Grants at MiCHR Workshop
- 9/30 - Michigan Laboratory Safety Fair

Announcements

- MCubed 2.0 Launched! - The U-M Medical School is contributing $1M towards this round of the program, anticipating that 180 cubes including Med School faculty will be formed. 2,500+ faculty with a 50% or greater appointment with the Medical School will receive a token that allows them to seek MCubed collaborators.
- Tech Tip: Several people at U-M received a phishing email on September 15 that claimed to be from the University of Michigan Library. The email directed recipients to a web page, which asked for their passwords. The webpage was actually stealing passwords and had nothing to do with the U-M Library. If you suspect you've fallen victim to this scam, you should change your UMICH Level-1 and Level-2 passwords immediately. If you have questions call 763-7770 or email...
Need Expert Advice on Your Research? Have you met with MICHR yet? **MICHR’s Research Development Core (RDC)** provides any investigator at the University of Michigan with personalized support and advice for grant proposals or research ideas. By offering free in-person consultations with faculty and grant editing assistance, RDC’s goal is to help you improve your research and funding success. Our experienced RDC team can advise on hypotheses, specific aims, study design, biostatistics, resubmission strategy and clinical trial protocols. We can also help you identify funding sources, mentors and collaborators.

**Register Now for November 19 Research Mentoring Forum** - As part of a commitment to mentoring across the U-M campus, the Michigan Institute for Clinical & Health Research (MICHR) and the Office of Faculty Development will co-sponsor a Research Mentoring Forum

**OSEH Update - Summer 2015**

**MLibrary@NCRC**: Need to purchase data for your research? **Apply for a Library Data Grant: October 1 deadline**

### Reminders

- Help MSIS improve their services by completing [this brief survey](#). Your input will help drive their improvement efforts and provide them with information about the type of support services you need.
- **Remembering David Barr**
- NCRC Administration is in the final stages of selecting a new food service vendor. It is very important to us to select a successful vendor that is creative, innovative and that will be a good fit for the NCRC community. Our goal is to have the cafeteria and catering services available sometime in October. Once the details have been finalized we will make a site announcement and provide a timeline. In the meantime, M-Dining food service will continue operations during this transition. Thank you for your patience and understanding while we work diligently to bring in the new vendor.
- **Research Opportunities Needed for Bright and Enthusiastic Undergraduates**
- **Office, Lab and Catering Deliveries** - All deliveries using a cart must come through the Building 90 dock or South entrance of Building 520. Small deliveries may be carried through the lobby as long as no cart is required.
- **Notary Service offered at NCRC!**
