North Campus Research Complex Buildings 20E & 25
Laboratory Renovations - Update

Project Recap
This project will renovate approximately 158,000 gross square feet of space within both buildings and will provide up to 60 new lab bays. A 6,900-gross-square-foot infill addition/atrium will be constructed to improve connectivity between the buildings and throughout the complex.

Schedule
- Construction start date: 06/12/2018
- Targeted Substantial Completion: 12/20/2019
- Status: Project work is currently on schedule
- Construction Progress: 10%

Recent Construction Activities
- Demolition work is wrapping up on the first and ground floors. Demolition work is complete for Levels 2 and 3
- Overhead mechanical, electrical and plumbing (MEP) and wall framing is taking place on the second and third floors
- Steel and concrete for atrium infill is near completion in preparation for temporary roof enclosure between Building 20E and 25
