This summer, Computer Showcase made it easier than ever to shop for technology on the U-M campus.

Showcase rolled out three significant business changes to break down barriers and improve customer service: year-round online ordering, simplified payroll deduction, and expanded customer eligibility.

Online ordering - previously restricted to payroll deduction customers or limited seasonal sale products - is now available to all customers year-round.

Also, using payroll deduction has gotten simpler and less restricted for qualifying faculty and staff. Highlights include:

- minimum purchase reduced to $50
- down payment reduced to 20% of purchase total over $250 (no more complicated tier structure)
- maximum balance increased to $2,000

Finally, Showcase proudly invites the entire U-M community to take advantage of competitive pricing and expert purchasing advice on personal technology needs. This includes parents, alumni, retired staff, temporary staff, visiting scholars, contract employees and other visitors to campus.

Computer Showcase provides sales, service and support of personal technology to the University of Michigan community. Product selection includes computers, tablets, software, security essentials, audio accessories and other peripherals at not-for-profit academic prices. Two full-service store locations—including authorized Apple, Dell and HP Support and Repair—are located on Central Campus in the Michigan Union and on North Campus in Pierpont Commons.

- 9/23 - TIAA-CREF Individual Counseling Sessions
- 9/24 - NCRC Flu Shot Clinic

Announcements

- Safety Tips: How to Prepare, Respond and Recover from a Flood
- Tech Tip: Got a dirty monitor? Here’s how to safely clean that screen: First, power down your device. Use a soft cloth moistened with soap and water to gently wipe down the screen. Avoid ammonia-based cleaners (like many window cleaning solutions) because they can damage your monitor or laptop screen. Let the screen dry completely before turning it back on. Got questions? Contact MSIS at 763-7770 or email msishelp@umich.edu.
